

BEARD WATSON'S  
BEAUTIFUL  
FURNITURE

*A few typical  
selections*

BEARD WATSON & CO LTD  
SYDNEY

# FOREWORD

WE PRESENT this Catalogue to our customers fully realising its limitations. A volume ten times the size would be necessary to display everything we sell. The illustrations, however, have been selected either for their general popularity or for the fact that they demonstrate the latest vogue in High-class Furnishing.

We very frequently plan and design Furniture to meet the special wishes and specifications of customers.

If there is anything you require which is not to be found in the following pages, write to us, and, if it is possible, we shall be pleased to supply you.

*Beard Watson & Co. Ltd.*

## We Specialise in Loose Covers

We have an immense stock of Materials suitable for the above, both plain and figured, including Cretonnes from 1/11 per yard to Printed Linens at 25/-.

An excellent plain material we advocate is Cairndale Cloth, which we guarantee to be unfadable. It is 50 inches wide, at 13/9 per yard. Samples sent on application.

For Chairs from 35/-

For Settees from 65/-

A skilled Cutter will be sent on request to any address, but in no other way can we guarantee a satisfactory service. Attempts have been made from time to time to cut New Covers from old ones, but never satisfactorily, and we have therefore determined that we must in every case cut from the actual articles to be covered.

### *Cushions, 22 in. x 22 in.*

Cretonne Cushions, filled Kapok, suitable for Verandah use, 8/9 each.

Poplin Cushions in a variety of shapes—Round, Square, Oblong, Oval—with 3 inch gathered borders and insertions, 29/6 each. Or in best quality Satin, 63/- each.

A few Model Cushions usually on hand.

Poplin Cushions, cheaper quality, 22 inches square, piped same material, no borders, 12/9 each.

*Fabrics for Window Treatments  
and Loose Covers in large variety  
always in stock.*

### *Lamp Shades*

The increasing use of Electric Lighting has given a great impetus to the use of these charmingly decorative adjuncts to any colour scheme.

We have made special arrangements for the production of these things in our own Workrooms, from a range of exclusive materials imported for the purpose, and in the result are able not only to offer a great variety of stock shades but to carry out special ideas as may be desired from time to time.

We have facilities for producing Hand-painted Shades, which are a charming variant to the more ordinary forms and can be made to strongly reflect the purchaser's individual taste.

The advantage of frequent importations of the latest London and Paris models in these goods maintains our stock at a high standard of attractiveness.

Special Figured Silks, Fringes, Bead Fringes, Wire Forms, Gimps, and all the small accessories for the production and use of these goods are held in stock and patterns are always available on request.

Wholly set up and printed in Australia by
